VOL. VIII.

RENO, WASHOE COUNTY, NEVADA. SATURDAY, OCTOBER 18, 1879.

NO. 17.

## NEWS ITEMS OF INTEREST.

A pioneer party of about seventy farmers from Sweden have sailed from Liverpool for the province of Manitoba, and if the movement should prove successful they will be joined by 600 others from the same country in the spring.

Archer, lately Lord Falmouth's jockey, is in the happy position of having made his fortune before he is 25. He is now to receive \$5000 a year as first jockey to the Duke of Westminster, and another \$5000 a year from another source.

The funeral of M. Viollet-Leduc, the eminent French architect, took place at Lonsanne on Sept. 22d, and the clerical French papers comment on the fact that the restorer of so many cathedrals should have prescribed a non-religious ceremony.

Under date Yokohama, Aug. 12th, Mr. Lilley, agent of the English National Bible Society in Japan, writes that 20,000 persons in that country have already died of cholera. He says the government has promptly established a most rigid quarantine.

Much interest has been felt in Florence at the discovery of over six hundred paintings belonging to the masters of the sixteenth century, laid away to rot and perish in government buildings; the authorities intend placing them in the royal gallery of the Uffizi.

Gen. Garibaldi is very anxious to have his marriage with the Signora Raimondi annulled, and a suit for that purpose is pending before the Royal court of Appeals, but the old General is so impatient that he has concluded to ask the King to annul the legal knot by royal rescript, in order that he may die free as to the legal rights of his grandchildren, who are living with him on his island home of Caprea.

The late Mr. Lewis Lawson, on whose account the recent encounter between M. Labouchere and his nephew, M. Levi Lawson, took place was a most charitable and philanthropic man. His purse was always open on the appeal of the thousand associations for some good purpose or other in London. He was half proprietor of the *Daily Telegraph*, from which he drew as his share of the revenue \$325,000. This was not the whole of his income, which was \$500,000 a year. He died worth \$5,000,000.

Herr Johann Boch, a well-known painter of Germany, was killed by a stroke of lightning some weeks ago while taking a walk in the neighborhood of a Bavarian village, where he had been passing the summer. It was beginning to rain, and he opened his umbrella, which almost immediately thereafter was struck by a thunderbolt that killed the unfortunate artist instantly. A black mark, extending from the head downward, showed the course the electric fluid had taken. The gold chain that Boch wore could not be found, and is supposed to have been consumed; the coin about his person was scattered in all directions, and his clothes were torn to bits. He was about fifty years of age.

The son of a German farmer returning from military service, threatened to commit murder when he found that his younger brother had supplanted him in the affection of a girl. She laughed at him and said she didn't believe he could muster courage to drown himself in the neighboring lake. He said he would kill himself in a manner which would make her stand on end, and on Sunday, Sept. 7, attached himself securely to a young horse and put a lighted slow match in its ear. After a frantic gallop across country, the maddened animal plunged into the lake. The young man's body was taken out mutilated beyond recognition.

### Suicides Increasing in Europe.

The number of suicides of late years has greatly increased in Saxony. The statistics for 1878 show that there were 1,125 cases of suicide committed, of which 215 were women. In 749 cases death was caused by hanging, in 217 by drowning, in 88 by shooting. The causes which led to commit the crime were, in 294 cases, melancholy, in 105, weariness of life; in 94, drunkenness and distemper; in 90, mental disturbances; in 89, poverty; in 65, physical suffering; in 39, unhappy love affairs. The ages of those committing suicide varied generally between 30 and 44. The number of suicides in England, or in London at any rate, during the last few weeks has also been three times as great as it was during the last year at the same time. It is supposed that the bad weather, the lack of sunshine, frequent rain, the recent storms and inundations, have had a bad influence on the minds of the inhabitants.

### Points of Endurance.

From the New York Sun.  
In 24 hours Gen. Merritt and his cavalrymen made 70 miles, killing several horses in the feat. That is an almost unprecedented pace for United States regulars. In 24 hours Sam Merritt, bridgeport pedestrian, made 110 miles. But he had been carefully trained; he had nutritious food and a coat constantly awaiting him within easy reach; and he walked and ran over a track prepared for the purpose. Moreover, he had ahead of him the prospect of pocketing a handsome pile of game money, instead of the much less agreeable prospect of stepping on an Indian bull.

### Eager To Die With Her Lover.

CINCINNATI, Oct. 6. — Miss Lulu George, who shot herself in the breast yesterday through grief at the death of her lover, is thought to-night to be dying. The case is a very sad one. She was a young woman of rare accomplishments, a painter of much ability, a finished pianist, and a composer of music. She was a student of vocal music in Theodore Thomas's college. She was 19 years of age, of handsome face and figure, and was a resident of Bonaparte, Iowa. She was engaged to be married in December to Frederick Ferriman, an estimable young man, traveling salesman for a Cincinnati house, whose home was at Dixon, Ill. Saturday night Frederick died of congestive chills, at the St. James hotel. Miss George was present at his death. Her prayers for his life, or if that was not spared, for her own death, were couched in language so passionate as to fill with amazement those who heard them. When it was told her that her betrothed was dead, she swooned. Through the next night she had only partial possession of her reason. Next morning she stole out of the house where she was boarding, purchased a small revolver, returned to her room, dressed herself elaborately, and aimed a bullet at her heart. She is eager to die, and reproaches herself that she did not do surer work.

### Fatally Bitten by an Insect.

From the Montreal Witness.

This morning a resident of the Tanneries named Robert Duffin, 53 years of age, died from the bite of an insect received last Sunday. The unfortunate man then felt a sharp sting in one of his arms, but whether it came from a fly or not he was unable to detect. He rolled up his sleeve and perceived that the bite was a poisonous one, and soon sent for a doctor, who did not, however, apparently apprehend any serious result. The arm, however, began to swell, and the effect of the poison to be felt on the system, whereupon the physician was sent for again. He cut off the part where the insect had stung the unfortunate man, but the operation came too late, and he died, as already stated, this morning. A somewhat similar case, it will be remembered, resulting in the death of a young man bitten by a fly while out driving, occurred in this city about two years ago.

### A Peculiar Apple.

From the Grass Valley Union.

A Matterson of this township, has left at this office, some apples grown upon a seedling tree in his orchard, that are different from any known variety. The skin of the apple when ripe is greenish, but the flesh is of a deep pink, about the color of a ripe watermelon, with a whitish tinge near the core. The flavor of the fruit is a pleasant sub-acid. The tree from which the fruit is gathered is about twelve years old, but has been bearing but four years. It is certainly a rarity, and entirely a new species to our local fruit-growers. The name adopted for it is the "Matterson Seedling."

### How to Save Money.

Instead of going to a doctor for a prescription, if you have Bright's disease, Diabetes, Pain in the back and loins, Smarting, Inflammation, Calculi, Bladder deposit, or any trouble of the Kidneys or Bladder, buy a bottle of Dr. Murre's Nephritic, the great Buchu Compound. It is the most wonderful prescription ever compounded for these troubles. Messrs. Abbott & Carroll, wholesale druggists, say: "We regard Nephritic as the best Kidney and Bladder Remedy in the market." Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, Oregon, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors have given them up. For sale by Osburn & Shoemaker. Price \$1.25.

### Morris & Kennedy, Nos. 19 and 21

Post street, San Francisco. Oil Paintings, Water Colors, Engravings and Frames. Velvets Frames of every description for cabinet pictures. These elegant goods are of the choicest description and are the latest productions of some of our most eminent artists. A free Art Gallery connected with the establishment contains the finest pictures in the city, and some of the finest in America. The latest productions of the best artists in the city go directly from the easel to this gallery. Visitors from Nevada are invited to inspect this fine collection. The display of Water Colors, fine Oil Paintings, Steel Engravings, Facsimiles, etc., is very large and elegant. Artists' materials and every style of Frames to all the latest order.

### For Sale.

A ranch containing 50 acres; fine soil, all in cultivation; 35 shares water; new house, cost over \$2000; barns and outbuildings; fruit and shade trees in abundance; 8 bee hives, 1 farm wagon, 2 horses, 1 set harness, 1 horse rake, and 1 Wilson Mowing Machine. I will sell the above for \$4000-\$5000 cash, down balance on time, if desired. The above property cost over \$6000. Reason for selling: owner wishes to engage in mercantile business. Apply to O. S. Manners, Real Estate Agent, Reno.

### Agency Standard Oil Co., Reno, Nev.

From this date, until further notice, we will sell the Pearl Brand of Coal Oil, 100-lb test, at Four Dollars per ton. A liberal discount in case of large orders. A. B. Barker, Agent. Reno, September 2, 1879.

### New Barber Shop.

B. Lane has opened a barber shop in the building on the corner of Virginia and Second streets. Hair cut for twenty-five cents. Farmers should try Osburn & Shoemaker's Conditioning Powder for horses and cattle, and

SATURDAY.....OCTOBER 18, 1897  
MINING SEDIMENT IN CALIFORNIA.

The mining sediment question has for years been one of the most important issues in California. The interests of the hydraulic miners and of the farmers along the river, have long been conflicting. Suit after suit has been brought by the agriculturists to restrain the miners from running their tailings into the river. The U. S. Land Commission, now sitting at San Francisco, has been gathering facts and opinions concerning land questions. B. B. Redding was the other day called on to give his views of the mining debris question, and made a suggestion which, if carried out, would probably lead to a peaceful settlement of the whole difficulty.

Just north of the American river, he said, near Sacramento, was a swamp, upon which much money had been expended in efforts to reclaim it. It was known as Swamp District No. 1. Since the commencement of hydraulic mining this swamp has been filled up considerably above the bed of the river. If a dam were put in Bear river and its water turned through a ditch into this swamp, it would serve as a depository for all the tailings sent down the Bear river. Another swamp of some 800,000 acres was situated east of the Sacramento and north of the Feather river. By a canal of about four miles in length the charged waters of the Yuba and Feather rivers could be made to deposit their sediment here. A large area of useless land might be reclaimed in this simple manner. It would be a practical solution of the debris difficulty, as was proved by the operations on Butte creek, where a like trouble had been adjusted in this manner by the mining companies of Butte county. The debris after a few years' following formed a rich loam, and the land thus produced would be the richest in the State. The owners of Swamp Land District No. 1 would be glad if the debris could be deposited on this land. The only difficulty in the execution of this work was the question as to who should bear the cost of the construction of canals.

This opinion comes from the best authority on land matters in California, and the plan proposed appears the only practical way out of the sickens trouble.

## GOOD TIMES COMING.

During the first week in October over 400,000 shares per day changed hands through the New York stock exchange. Through the influence of the resumption of specie payment, the heavy grain crop here, and the short crops in Europe, and the refunding process which has tended to keep interest down and money easy, speculation is wild in the East and every form of business is carried on under full sail. Since August first thirty nine millions of dollars have come in from Europe and about fifteen millions are now on the water. The Pacific coast will beyond question feel the good effects of this improved condition of the Eastern States. Nevada already has many mines being opened by capital from New York and the best of it is that they open well. D. R. Sessions, who yesterday morning returned from a long trip over eastern Nevada, says that the utmost confidence prevails in every county of the state. He says Tuscarora never looked so well. Eureka has the best of prospects. Pioche is only waiting for law suits to end in order to have a boom. Lander county will start up like a giant unbound when the railroad is finished. Churchill county will stand in line with Humboldt and Washoe, and the Comstock will be the king pin. We are about a year behind the states with our depressions and our revivals, and we are getting ready for a glorious season next year.

## THE COMINS-HOYT LIBEL SUIT.

The Comins-Hoyt libel suit will be tried in Hamilton early next month. The case is briefly this: A. V. Hoyt, ex-publisher of the Cherry Creek Independent, stated in his paper that State Senator Comins, of White Pine, had sold his votes to the legislature last winter. Comins subsequently secured Hoyt's indictment for libel by the grand jury of White Pine. It is stated that Supt. Yerrington of the V. & R. road, S. T. Gage of the Central Pacific, Supt. Ervett of the E. & P. Mackay and Fair, together with many of the members of the late legislature, have been summoned to appear as witnesses in the case. The suit is attracting a great deal of attention.

## SPECIAL EXCURSION RATES.

To accommodate people who may wish to attend the Grant reception at Sacramento next Wednesday, the Central Pacific Railroad Company has arranged to sell excursion tickets at very low rates. Instructions have been issued to agents to "sell special tickets to Sacramento and return by train arriving there on the 21st and 22d instant, on the occasion of the reception of General Grant, at two-thirds regular tariff, round rates, void after Friday, the 24th. Passengers from non-ticket office stations can pay conductors to the first ticket office station and there purchase tickets."

The leading features of the celebration at Sacramento will be a grand procession, and a review and speeches at the Capitol. In the evening there will be a fine display of fireworks at the Capitol grounds, music by the bands on the balcony, a general illumination of the grounds with colored lanterns, also an illumination of the dome and building, a reception in the Assembly Chamber by General Grant and a reception in the Senate Chamber by Mrs. Grant.

## GRANT IS COMING.

General Grant left Portland yesterday on the steamer St. Paul. He will be received in Sacramento next Wednesday with public honors. On our third page will be found an account of an excursion which has been organized at Truckee to attend the reception at Sacramento.

As yet Reno citizens have taken no action towards making any demonstration when Grant arrives here. Truckee has an organized committee of reception and Grant will be received there with a rousing welcome. Will not some of our citizens move in the matter?

## EDITORIAL NOTES.

The coroner's jury in the inquest on victims of the railroad disaster at Jackson, Michigan, found that Col. well, the yard master, was criminally negligent of his duty in allowing the switch engine on the main track at a time when the express train was due. The verdict also censures several other employees.

The horses now lead in the match between man and beast at San Francisco. At 9 p. m. last night the score stood: Brodie 147, Wilcox 118, Newhoff 119, McAlpine 103, Guerrero 142, Controller 183, Denver Jim 135, McCarthy 158, Pinafore 192, Hoodlum 145, Nelly 159.

Typhoid fever is quite prevalent in Virginia City.

## PACIFIC COAST NEWS.

A two-headed gopher snake has been found in California near San Jose.

A large excursion party from Nevada City are going to see Grant at Sacramento.

Fred Marriott and son, of the San Francisco News Letter, have been arrested on a charge of libelling E. J. Baldwin.

An eight-year old child named Gratton was run over and killed by a runaway team near Olympia, W. T., on the 16th.

W. H. Isaacs and John Smith quarreled at Hayward, Alameda county, Cal., on the 16th, about a debt, when Smith shot Isaacs. His condition is critical.

The Grand Lodge of Masons has adopted Walter Wilcox, the boy sent to the coast last year by the Masons of New Orleans, he having lost his parents by yellow fever. The Lodge is to allow him \$50 per month.

If you want your watch well repaired to your entire satisfaction take it to Wm. Goeggel, the leading watchmaker of Reno, (on west side of Virginia street.)

Dr. Stone's Healing Lotion for Chapped hands, rough skin, rashes, etc. Put up only by Osburn & Shoemaker.

All lovers of a first-class Bit Cigar come to John F. Myers' Drug Store, two doors west of postoffice.

A Case of Temporary Derangement.

A young man on the west-bound overland last night, gave evidence of mental aberration, and was induced by a fellow passenger to stop off in Reno for a day. The luggage of the mentally deranged was checked through to San Francisco, but he did not appear to know where he was going, and talked in a very wild fashion about his past life. He was comfortably lodged in the Depot hotel last night, and to-day, when met upon the street by his fellow traveler, he seemed much better. He complained, however, that there was a man by his bed all night, firing pepper and salt into him through the bed clothes, from a flea gun. The sufferer said he told the proprietor, who promised to have it stopped, but still the nuisance continued. What atrocious whiskey there must be in Eastern Nevada!

THE TOWN OF COMO.

A Poor Place For Loafers or Visitors.

There is no room at Como for a rush of visitors. There is no hotel nor boarding house except a small one built by Mr. Walter for the men at his mill. W. H. Vance has a bran new saloon with O. E. Nash as agent, but there are no accommodations for either man or beast and there is no work to be had at present. After the mill gets to running so that the miners can have their ore worked, money will be plenty, and Como may be a good place to go to but it is not now. Heppery and his crew are very comfortably housed in an old tunnel which they have boarded up at the face. A shaft many feet deep and 40 feet from the mouth, which would be dangerous to somnambulists, is the only drawback to their complete satisfaction. The mines are entirely

FREE FROM WATER.

Indeed it looks as though the water question would give a city, if located there, some trouble. The ridge upon which the mines are found is a narrow and steep one and is almost the counterpart of the one in which the Comstock lies. The altitude is about the same. Both are about the same distance from the Carson river; Virginia north, and Como south of it. In front of each rises a sharp peak which hides it from the view of anyone on the mountains opposite. The timber which once covered the rugged hills has been cut off and either used at old Como or hauled to Dayton and the mills on the Carson. There is nothing left but a scanty growth of junipers like that on the hills north of Reno, and this is fast disappearing. The town of Como has been surveyed and mapped out. A copy of the plat has been nailed up on the wall of Martin, the wizard's old cabin, and it seems to be quite a city. There are streets named Virginia, Carson, etc. The

LOTS ARE SELLING.

quite rapidly at from \$37 20 to \$200 apiece. A man named Rose claims the town site. What hay is used is worth \$35 a ton. It costs twelve to haul it up from Dayton. The demand is limited as yet. Como lies south of Dayton and is reached by a steep grade. The road is a hard one on horses but a very interesting one indeed for the lover of fine scenery. It crosses El Dorado Canon and keeps out on the open all the way to the summit, giving the traveler a full view of Carson Valley below and behind him with Dayton, Suto and many fine ranches in full view. As he rises still higher, Silver City, Gold Hill and finally some of the works around Virginia seem to spring up from among the brown hills opposite. A good team can easily make the trip from Carson or Virginia and return in a day. This is a trip well worth taking this pleasant weather.

RACING AT CARSON.

Belle H. Wins the Unfinished Race—A Fine Three-in-Five Contest.

There was a small attendance at the Carson race track yesterday, although the day was exceptionally fine. The unfinished trotting race of Thursday was won by Belle H. in one heat. Time, 2:33 3/4. The only other race was for trotters, three in five, in which Red Cross, St. Helena, Maggie C. and Note and Stanford started. Red Cross was one of the best of the week. Red Cross was a strong favorite in the pools, and won the first heat. St. Helena came in first in the second and third. The fourth heat was won by Red Cross, and in the fifth he led to the three-quarter pole, when he was overhauled by St. Helena. The two came side by side down the home stretch in a most exciting finish, St. Helena winning the heat and race by a length. The best time was 2:30 3/4. The result was a surprise, and the buyers of the field reaped a rich harvest of coin. Two running races and a two mile and repeat trotting race were arranged for to-day.

Alvaro Evans Wins a Bet.

A well known resident of Washoe county attended the late fair, bringing with him such a steed as the famous Don Quixote bestrode in his erratic wanderings. Upon this sorry beast the owner offered to stake \$20 against time. He wanted someone to bet that his horse could not trot a mile in three minutes. Alvaro Evans had been studying with great interest the anatomy of the vanquished quadruped, and promptly took the bet. No one knew better than the owner of the horse that the animal could not cover a mile in six minutes. So he deferred the trial of speed until he could get his Rosinante in condition. In the meantime he cast about him for means to recover his \$20. At length he went to the holder of the stakes and said: "Evans put up silver on his bet and I put up gold. Give me back my gold piece for this roll of silver," handing over what appeared to be a \$20 roll of halcyons. The stakeholder assented, and returned him the gold piece. As the owner of the horse failed to put his steed to the test, his stake was declared forfeited, and handed over to Evans. To that gentleman's great surprise and indignation, the \$20 roll when opened proved to be a section of an iron bar.

THE NEW IRON ROAD.

Progress of the Nevada Central Railway—The Great Enterprise of the Interior—In Operation Nov. 1st—Stage Bumping Suspended.

From our own Correspondent. BATTLE MOUNTAIN, Oct. 15.—Your correspondent arrived at Battle Mountain to-day, and the first words he heard uttered, as the train pulled into the station, were from the lips of an English tourist; somewhat to this effect. The traveler saw the engine of the narrow gauge road, and after propounding a few questions, which were promptly answered, said: "By Jove, you know, these American people would build a road to the very devil, and then would expect to bridge the Gulf, you know, and get into heaven on a curve; just as sure as you live, I tell you I believe it." The Englishman was pretty nearly right, for the indomitable energy and perseverance of those interested in the Nevada Central Railway seems to be almost unsurpassed. The work is being pushed with the utmost vigor and greatest care.

SIXTEEN MILES OF GRADING.

are completed; as firm and solid a piece of road bed as one can imagine. The contractor is evidently figuring on frost and providing for contingencies. Seven and a half miles of track have been laid, and a little engine called Austin, is running up and down at a lightning speed. There are twenty-five cars in use on the construction trains. Two hundred and twenty-five horses and over one hundred and twenty-five men are constantly employed. Over two hundred carloads of freight have been received by the company and work is being pushed with great vigor. The grading of the road is under the supervision of Messrs. McGregor & Blossom, who are sub-contractors under

GEN. JAS. H. LEDLIE.

to whose untiring energy and judicious executive ability is largely due the success of the enterprise. We had the pleasure of a brief interview with him and were most courteously received, and had time permitted, would have ridden the length of the road. The General assured us that the entire construction and equipment of the road, would be completed for twenty miles and open for business by the first day of November, at which time the stages and mail would start from the terminus of the road. A full equipment of passenger coaches will be delivered in Battle Mountain on or before the first proximo. The General is a rustler and will put things through on time. A feature in the progress of grading with which your readers may not be familiar, is the

NEW ERA EXCAVATOR.

six of which are at work under the supervision of Mr. Mason, the patentee. The New Era is a sort of an indescribable thing, which runs in every direction, and throws a delicate alkali spray in every other, until you think you don't know which way it is coming or where you are going, and you sit down only a bunch of grease wood to breathe and find that the machine cuts up the entire United States in general and Lander county in particular, at the rate of more than 6000 yards per day. That as near as I can come to an era, and if you think you know anything more about it, come and write it up yourself.

THE WORK.

is being pushed determinedly, and there seems to be no doubt about the completion of the road within the contract time. Mr. M. H. Angell is on the ground representing the syndicate. We don't know much about syndicates, except it is a sure thing they mean business. Mr. Angell seems to be thoroughly in earnest, and his principals, Hatch, Fitch & Co., and Phelps, Stokes & Co., are well represented. The Nevada Central is a live enterprise and will be of great benefit to this section of country. It is business, and just lays quietly over the short-bit policy of the stage proprietors. There is something refreshing in the "bigness" of the small fry which a wandering scribbler enjoys. General Ledlie wished to give your correspondent a spin on the road. He would have brought in his train and run it out again, off time, just as a matter of accommodation, but the Great Mogul of the stage business, couldn't possibly hold his "jerkey" three minutes. But then he is a road agent, and correspondingly important. But oh, Mr. Editor, hear while your scratcher whistles, stay in Reno until the N. C. R. is built. Yours, SUMPKINS.

Church Notices.

Rev. S. A. Ringe will preach in the Baptist church on Sunday, morning and evening. Subject in the morning—The Power of the Gospel. His theme in the evening will be—The Rich Man and Lazarus—Service in the morning at 11 o'clock. Evening service at seven.

The services at Trinity Church tomorrow will take place at the usual hours. There will be divine service at the M. E. Church to-morrow evening at 7 p. m. Rev. J. W. Pendleton will preach. There will be no morning service owing to the pastor having to attend the funeral of R. H. Crocker at 12:30. Sabbath school as usual at 1:30 p. m.

You need not go down in a damp cellar for a bath, for you can get a fine bath and nice room for 50 cents at Pecher's Bath House, Virginia street.

Brocade goods, with satins and silks to match, at I. Barnett's.

018-17

U. S. COAST AND GEODETIC SURVEY.

The Party Down from Round Top—Mercury Marking—Sea—Signaling—100 Miles—Completion of the Work.

The astronomical and geodetic party under charge of Prof. Davidson, has finished its work at Station Round Top in the Sierra Nevada, south of the Carson Pass, but not before it had encountered two very severe storms of snow and wind, in which the thermometer was nearly zero for many days. When they came out the snow averaged four feet in depth, and the men and animals sank three feet into it.

The astronomical and geodetic work at Round Top has been successfully executed in less than two months, although the lines to distant stations in the Coast Range are from 120 to 180 miles in length, and pass through the dense smoke stratum of the Sacramento Valley. The lines are longer than any ever undertaken in Europe. Nevertheless it is understood that the results are in the highest degree satisfactory.

A special series of observations was made to determine the coefficient of refraction at these great elevations.

To exhibit the peculiar orographical features of Round Top (named apparently by the rule of contraries because it is a great, sharp backbone), one of the officers has made a topographical survey of the mountain; whilst Watkins, the celebrated Yosemite photographer of San Francisco, has executed some fine large photos of the mountain to illustrate its general and detailed characteristics.

THE HERMIT OF COMO.

Sad Fate of One Whose Faith Never Faltered.

Among those who rushed in during the early days of Como's prosperity was a gentleman from New England named Walton, and he was the last one to leave it. Long after the excitement had died away he stuck to the belief, or it stuck to him, that there was silver there and to be got for the taking. He lived alone in a cabin about in the center of the deserted town, and packed in grub enough to live on upon his back, doing his assessment work on his mine (the Buckeye). He was known all over the country as "Old Como," and had as many friends as he had acquaintances. He was at one time a member of the Legislature, and by no means an unworthy one. Some time in 1871 his cabin took fire and was burned to ashes, consuming him in the flames. He was buried by his brother Mason's in Dayton. The universal expression of the old miners in Como is "what a pity Walton is not alive now."

Sunday Evening Lectures.

Mr. Jenvey has just finished his four historical lectures in which he endeavored to show how God was preparing the world for the coming of Christ and Christianity. He now designs giving a series of lectures upon the evidences of Christianity. So many scholarly and learned men are followers of this faith that there must be some solid foundation for the truth of the religion. Mr. Jenvey proposes to furnish this evidence. To-morrow, Sunday, evening he will begin these lectures by showing that the books of the New Testament were written by the men to whom they are accredited, and that they were written at the time claimed for them. This will introduce the whole theme.

A Big Grant Excursion from Truckee.

An excursion party will leave Truckee next Tuesday night, in special cars attached to the regular overland train, to attend the Grant reception in Sacramento on Wednesday of next week. Tickets for the round trip are being sold for \$4. Returning, the cars will leave Sacramento Thursday evening at nine o'clock with the east-bound lightning express. Tickets for one car load of passengers have already been sold, and a second car will be taken if sufficient excursionists come forward. Truckee will probably send 120 people to Sacramento on the excursion. The cars are hired by a committee and cost, it is stated, \$250 each. Each car holds sixty persons.

A Freight Train Bumped on the C. P.

An east bound freight train got divided near Bronco on Thursday night by the breaking of a coupling bolt, and the seven rear cars were left some distance behind the train. When the engineer found them missing he stopped the train and waited for them to come down the grade. They did come, and brought up against the forward division of the train with such force as to break seven drawheads. The accident was probably owing to the negligence of some of the brakemen.

The Reform Club To-Night.

The meeting of the Reform Club this evening will be enlivened by a variety of recitations, readings, and vocal and instrumental musical performances. The regular course of addresses will be resumed next week. Particular attention is called to the fact that the entertainment will commence at 7:30 sharp, and that the hour of closing

**Sheriff's Sale.**  
BY VIRTUE OF AN ORDER OF SALE issued out of the District Court of the Second Judicial District, State of Nevada, in and for the county of Washoe, on the 24th day of September, A. D. 1879, and to me directed and delivered, on a judgment and decree rendered in said Court on the 24th day of September, A. D. 1879, in favor of "The Reno Savings Bank, a corporation," and against S. F. Hoole, in which decree there is found to be due and owing to said bank, a corporation, the sum of \$215, with interest as specified in said decree, together with costs, now amounting to \$75.76, and accruing costs and expenses of this sale, I will sell at public auction to the highest and best bidder for cash in hand U. S. gold coin, the following described real property of the defendant S. F. Hoole, or so much thereof as may be necessary to satisfy said judgment and costs, commencing at 10 o'clock, A. M., on Monday, the Twentieth day of October, A. D. 1879, between the hours of nine o'clock A. M. and one o'clock P. M. of that day, to wit: at one o'clock P. M.  
W. A. WALKER, Sheriff.  
Dated Reno Sept. 25, 1879.

And in accordance with law and an order of the Board of Trustees, made on the 7th day of August, 1879, so many shares of each parcel of stock as may be necessary, will be sold on Monday the 7th day of October, 1879, at 2 o'clock P. M. of that day, at the delinquent assessment thereon, together with costs of advertising and expenses of sale. By order of the Board of Trustees.

Crown Prince Gold and Silver Mining Company, per WM. HOFFMAN, Secretary.

The above sale is postponed until November 18th, 1879, by order of the Board of Trustees.

WM. HOFFMAN, Secretary.

**Notice of Assessment.**

SOUTHERN NEVADA MINING COMPANY. Location of Works, Santa Fe Mining District, Esmeralda county, Nevada. Principal place of business, Reno, Washoe county, Nevada.

Notice is hereby given that at a meeting of the Board of Trustees of the Southern Nevada Mining Company, held on the 15th day of October, 1879, an assessment (No. 1) of ten cents per share was levied upon each share of the capital stock of the corporation, payable immediately in Gold Coin to the Secretary.

Any stock upon which this assessment shall remain unpaid on the
